

SETC 2012 Call for Papers

SAE International

SETC 2012 Call for Papers

Monona Terrace Community and Convention Center
Madison, WI, USA
October 16-18, 2012

Technical Sessions at the Small Engine Technology Conference will focus on applications such as motorcycles, scooters, marine, small agricultural and equipment, hand tool, snowmobiles, snow removal equipment, recreational vehicles, portable power generators, and unmanned vehicle systems.

Major subject areas being addressed at the conference as follows:

- Advanced Combustion
- Alternative Fuels
- Collegiate Events
- Control Systems
- Diesel Engines
- Emissions
- Engine and Vehicle Components
- Engine Controls
- Engine Technology
- Environmental Impacts
- Fuel Supply Systems
- HCCI
- Hybrid, electric Drive & Fuel Cell
- Lubricants
- Materials
- Measurement & Simulation
- NVH Technology
- Powertrains for Unmanned Vehicles
- Two-Stroke Engines
- Vehicle Dynamics & Safety

Paper should be applications oriented, contribute to state-of-the-art technology with conclusions supported by technical data, and devoid of commercialism. Authors should prepare their papers in metric(SI)units. No presentation will be accepted without a paper submission and each paper must be presented in order to be published.

Prospective authors are asked to submit electronic abstracts of 300-500 words for consideration including a tentative paper title, author(s) Name(s), mailing address, e-mail address, telephone and fax numbers.

In addition, each abstract should:

- State the significance of the work to the progress of relevant engineering areas.
- Indicate whether the paper has ever been presented before.
- State the main conclusions of the proposed paper.
- Summarize the process by which the conclusions were reached.

Abstracts are submitted on-line via the SAE website <http://www.sea.org/events/set/cfp.htm> upon submission, you will receive an automatic reply with your tracking number. Abstracts are due no later than February 14, 2012. Draft manuscripts are due April 19, 2012 and final manuscripts are due August 7, 2012.
