

Banquet

Attraction: Japanese lion dance (Shishi-mai)

During the banquet, the guests can enjoy a traditional Japanese lion dance show (Shishi-mai) handed down in Funatsu town located in north-eastern Himeji-city. The town having a bucolic landscape has been developed through mainly agriculture. This Shishi-mai was originally begun with a wish for recovery from massive fire which occurred in the town around 200 years ago. The show will be performed by Nakano Shishi-mai Preservation Society. The show consists of 11 repertoires, including dance by a female and/or a male lion. For the banquet, selected 2 repertoires will be performed by a male and a female lion. The content of Shishi-mai is under consideration. We will inform you on our website when it is decided.
